

# Well at Work: Forensic Staff study

*Are you employed by the Nottinghamshire Healthcare NHS Foundation Trust working in inpatient forensic, community forensic or prison mental health services?*

We need your input into our research that looks into mental health and psychological wellbeing needs of NHS forensic staff. This is a NIHR ARC-East Midlands funded study, the findings of which are expected to be shared with local services to improve staff wellbeing support.

We will ask you to complete at your convenience an anonymous **survey** (approx. 20 mins) which involves filling in questionnaire items about your psychological wellbeing, as well as your work engagement and performance.

You will be entered into a prize draw to receive one of 3 vouchers when you complete the online survey.

*Interested?*
